Warrant Canary – Statement on Requests from Authorities

WorxVPN service (https://worxvpn.net)
Issuer: Globe Data Ltd., Victoria, Mahé, Seychelles, Company ID 219888 (https://globedata.ltd)
Statement valid as of: 2026-11-01
Next scheduled update no later than: 2026-05-01
Issue number: 1

---

1. Purpose of this statement

In some cases the law may prohibit us from disclosing that we have received a request from a public authority for data. We therefore confirm this statement regularly. If it stops being updated or any of its statements disappears, customers should take it as a signal that the situation may have changed.

2. Statement as of the date of issue

As of the date stated above we confirm that:

- we have not received any request, order, court order or subpoena from any public authority for data about WorxVPN customers,
- we have not received any order prohibiting us from disclosing such a request,
- we have not been compelled to introduce logging of customer traffic or connections, or to install devices or software enabling their monitoring,
- we have not disclosed any customer data to any authority or third party,
- no third party has had access to our infrastructure for the purpose of monitoring customers.

3. What if the statement disappears or changes

If the statement is not updated within 30 days after the scheduled update date, or any of the statements above has been removed, customers should not assume that it still applies. For obvious reasons we may not be permitted to state the reason.

4. Updates and archive

We update the statement at least once every 6 months. Previous versions are kept at https://worxvpn.net.

5. Limitations

This statement relates to data the operator holds. Data that technically does not exist (see the Data Processing and Logging Statement) cannot be disclosed. This statement is not an independent audit and does not guarantee that the situation will not change in the future.

On behalf of Globe Data Ltd.:
